

## GREEN BEAM LASER LEVEL

Automatic self levelling Green beam  
Rotary laser level

### FEATURES:

- ✓ Exterior and Interior Laser
- ✓ Electronic self levelling, wide levelling range, high precision and stability
- ✓ With MCU control, easy operation and highly reliable
- ✓ In horizontal mode unit supplies a horizontal plane with plumb point
- ✓ In Lay down mode unit supplies a vertical plane with horizontal point
- ✓ Scanning function
- ✓ Clockwise and counter clockwise rotating function
- Manual dual axis slope
- ✓ Water Resistant
- ✓ Auto Drift System
- ✓

## APPLICATIONS:

- A perfect combination laser for interior and exterior construction – 3 lasers in one – indoor, outdoor and plumb feature along with a full function remote control
- Easy to operate in horizontal and laydown mode with manual dual axis slope capabilities

## INCLUDES:

- ✓ Laser
- ✓ Ceiling mount
- ✓ Detector with clamp
- ✓ Rechargeable batteries & charger
- ✓ Remote
- ✓ Laser glasses
- ✓ User manual
- ✓ Hard plastic case with foam insert.

## SPECIFICATIONS

Accuracy	± 3mm in 30 meters
Level System	With electronic sensor
Self Levelling Range	± 5°
Operation Temperature	-10° C ~ +40° C
Operation Range	Dia. 500m (with detector)
Rotation Speed	0, 60, 120, 300, 600rpm
Scanning Angle	0°, 10°, 45°, 90°, 180°
Manual Grade	± 5° X and Y axis
Working Time	Approx. 20hrs with Nimh
Waterproof	IP 64
Thread Size	5/8"
Warranty	1 year Warranty
