

5 POINTER & CROSSLINER

Automatic Levelling 5-Beam Level
& Cross line Laser

FEATURES:

- ✓ Variable Beams Options: Five square (90°) beams & Horizontal and Vertical Beams provide simultaneous level, plumb and square applications
- ✓ Automatic Levelling: The automatic levelling mechanism eliminates set up time, guarantees accuracy and the repeatable transfer of points to multiple locations
- ✓ Automatic Out of Level Sensing: The visual (blinking laser beam) out of level indication signals if the unit is out of level after initial set up. This eliminates tool status checks and costly errors, saving time and money
- ✓ Locked Line Angle: Takes the unit out of self-levelling mode and locks the line in place allowing you to set the unit at any angle
- ✓ Multipurpose Attachment Accessory: Attachment accessory with strong magnets, tripod mounts and straps allow for attachment of the laser to a variety of different surfaces including metal studs, wooden beams and tripods
- ✓ Field Recalibration: Easy field recalibration guarantees performance to specification and keeps the Laser on the jobsite, saving time and money

APPLICATIONS:

- Carpentry: Level and set cabinets and countertops, level, square and plumb decks; Plumb framing and partition walls
- Concrete: Set forms and footings; Square foundations
- Electrical: Level electrical outlets; Transfer lighting layout from floor to ceiling
- Flooring: Layout tile

INCLUDES:

- ✓ Laser
- ✓ Multipurpose attachment accessory
- ✓ Laser target
- ✓ User guide
- ✓ Mounting strap
- ✓ Three (3) "AA" batteries

SPECIFICATIONS

Accuracy	$\pm 5\text{mm} @ 30\text{m}$
Laser	$635\text{nm} \pm 5\text{nm}$
H & V Level Beam Accuracy	$\leq 3\text{mm}/10\text{m}$
Up & Down Dot Accuracy	$\leq \pm 1.5\text{mm}/10\text{m}$
Working Distance	$\geq 30\text{m}$ (with receiver)
Battery Life	Up to 8 hours of constant use with all beams operating
Power Supply	3 "AA" batteries
Rugged Construction	Dust, dirt and water resistant
Thread Size	5/8" and 1/4"
Warranty	1 year Warranty
